## SUMMARY

Experienced **Full-Stack Web Developer** and **Computer Engineer** with 5+ years of expertise in top-tier technologies across Front-End and Back-End. Renowned for prioritizing usability and user experience. Committed to ongoing learning and development. Proficient in generating innovative ideas and adept in agile methodologies, adding significant value to any development team.

## PROFESSIONAL EXPERIENCE

### Full-Stack Developer

Homie Rent - Remote Work - Chile

09.2022 - 03.2024

Skilled Full-Stack Developer with experience in **React/TypeScript & Django REST Framework**. Proven ability to develop, debug, and support web applications. Experienced in Agile methodologies (**SCRUM & Kanban**) using **JIRA** for workflow & task management.

#### Achievement:

- Built the frontend of a complete and configurable platform for internal and external clients in record time. This platform allowed the company to visualize and manage its data. In addition, it was possible to go from 0 to approximately 1500 users who have used the platform.

### Front-End Developer

Foodwize - Remote Work - France/Venezuela

03.2022 - 08.2022

Expert Front-End Developer in **React & TypeScript**. Builds & debugs web apps, utilizing **SCRUM & Kanban** boards for agile development. Actively participates in code reviews, ensuring high-quality & efficient software delivery.

### Full-Stack Developer

DOMINION GLOBAL - Remote Work - Mexico, Spain

05.2021 - 10.2021

Versatile Full-Stack Developer skilled in **Vue/TypeScript & Java SpringBoot**. Delivers robust front-end & back-end solutions. Actively participates in daily **SCRUM** reviews, fostering quality & continuous project advancement.

### Full-Stack Developer

IdeaDecoders - Remote Work - Panama, Chile

02.2021 - 11.2021

Proficient Full-Stack Developer adept in **React, Vue/TypeScript & Java SpringBoot**. Builds high-quality front & back-end applications. Thrives in **SCRUM**, actively collaborating through daily reviews to guarantee project efficiency and success.

### Full-Stack Developer

Sistemas Informáticos Tecnova - Presential Work - Venezuela

09.2019 - 05.2021

Proficient Full-Stack Developer with leadership experience. Manages Front-End teams, crafting UIs & component logic (**React, Vanilla JS/jQuery**). Contributes to Back-End with **Laravel**. Thrives in **SCRUM**, actively participating in daily reviews for project success.

#### Achievement:

- Lead the Front-End team in the development of the visual client for the SysPRIM platform from scratch. This platform is manageable and configurable through roles and permissions, allowing specific sections to be displayed to each type of client. It also offers the ability to make payments and direct inquiries within the platform, and it is still in use today.

## SKILLS

- Effective Communication
- Team Player/Collaboration
- Continuous Learning / Self-Taught
- Problem solving/Critical Thinking
- Flexibility and Adaptability
- Attention to Detail/Creative
- Time Management/Organization
- Ability to Accept Feedback

## TECHNOLOGIES

- JavaScript / TypeScript
- React / NextJS / Vue
- NodeJS / NestJS
- Python / Django Rest Framework
- Java / SpringBoot
- PostgreSQL / MySQL
- Docker / Kubernetes
- CI/CD / GitHub Actions

## EDUCATION

### Computer Engineering

Universidad Politécnica Territorial Andres Eloy Blanco (UPTAEB) - 2016 - 2021

## LANGUAGES

- Spanish - Native
- English - Intermediate
